A finite-state machine (FSM) or finite-state automaton (FSA, plural: automata), finite automaton, or simply a state machine, is a mathematical model of computation. It is an abstract machine that can be in exactly one of a finite number of states at any given time. The FSM can change from one state to another in response to some external inputs; the change from one state to another is called a ...

A ticket machine, also known as a ticket vending machine (TVM), is a vending machine that produces paper or electronic tickets, or recharges a stored-value card or smart card or the user's mobile wallet, typically on a smartphone. For instance, ticket machines dispense train tickets at railway stations, transit tickets at metro stations and tram tickets at some tram stops and in some trams.

1.28 My MySQL server sometimes refuses queries and returns the message 'Errorcode: 13'. What does this mean?¶ This can happen due to a MySQL bug when having database / table names with upper case characters although lower_case_table_names is set to 1. To fix this, turn off this directive, convert all database and table names to lower case and turn it on again.

PROBLEM: My workshop needed some serious sounds - bluetooth speaker and streaming service were no longer cutting it. I needed to go back in time - back before One Direction - back even before Nickelback.I needed... a classic jukebox. SOLUTION: 'Time Machine' Mini Jukebox (with Bubbles). ('mini' because of space issues, and 'with bubbles' because of... well just because).

Finding the bus. Exit the arrivals hall at door D and look for the ATVO bus stops on your left. Stop 1 is for Mestre Railway Station. Important: Before or immediately after boarding the bus, validate your ticket in the yellow stamping machine unless the driver takes your ticket and punches it as you board. (This isn't necessary with tickets ordered online and printed from PDF files.)
