BCCS FEEDING ADVICE FOR MAGPIES (AND OTHER INSECT EATERS)

the magpies the magpies pdf

The Australian magpie is a medium-sized black and white passerine bird native to Australia and southern New Guinea. Members of two subspecies groups, black-backed and white-backed magpies, were introduced into New Zealand to control pests in pastures but have themselves become an invasive species. The birds can be aggressive and commonly attack humans and occasionally native birds.

BCCS FEEDING ADVICE FOR MAGPIES (and other insect eaters)

Magpies are birds of the Corvidae (crow) family. The black and white Eurasian magpie is widely considered one of the most intelligent animals in the world and one of only a few non-mammal species able to recognize itself in a mirror test. In addition to other members of the genus *Pica*, corvids considered as magpies are in the genera *Cissa*. Magpies of the genus *Pica* are generally found in ...
