The Manhattan Project was a research and development undertaking during World War II that produced the first nuclear weapons. It was led by the United States with the support of the United Kingdom and Canada. From 1942 to 1946, the project was under the direction of Major General Leslie Groves of the U.S. Army Corps of Engineers. Nuclear physicist Robert Oppenheimer was the director of the Los ...

Manhattan Project - Wikipedia

The Manhattan Project is a 1986 American science fiction thriller film. Named after the World War II-era program that constructed the first atomic bombs, the plot revolves around a gifted high school student who decides to construct an atomic bomb for a national science fair. It was directed by Marshall Brickman, based upon his screenplay co-written with Thomas Baum, and starred Christopher ...

The Manhattan Project (film) - Wikipedia

American infrastructure is in dire need of repair and replacement. Yet decades of experience have shown us that simply showering federal money on infrastructure is not the right solution. Indeed, this approach has been shown to encourage wasteful spending on projects that are politically expedient ...
